Folder Structure

This is some of the content the folders hold.

These are the folders and a little bit of content of what the folders will contain.

All of the sites pages will be kept here. You will be able to change the site feature by editing these files.

The assets of the site are kept here. If any more assets are added or removed they will be in this folder.

The images of the site will be kept here. By editing these files they will edit the site.
