

## E-activity 5

### Task 1

Types of printers in Selby College:

1. AC015 - HP LaserJet 4100
2. J129 Colour - HP Colour Laserjet M551dn
3. Principle Colour - HP Color LaserJet M551

Printers in colleges and school tend to be laser jet due to its low INC usage and good quality printing.

### Task 2

**Three types of storage devices used in technology systems:**

1. Hard disk drive
2. USB Flash drive
3. Floppy disk

**Explain what an automated technology system is:**

An automated technology system is a system that can do something on its own. It has to have been told that it has to do it automatically at first but then the software should continue running until stopped or an error has been found somewhere if the application has that sort of error checking.

### **What is RFID**

Radio frequency identification is the use of radio waves to read and gain information stored on a tag attached to a object. A tag can be read from up to several feet away and does not need to be within direct line-of-sight of the reader to be tracked.
