Websites

Browsers

A stylized globe is the central focus, featuring a blue and white map of the world. It is surrounded by vibrant, glowing lines in shades of orange, yellow, and red that swirl around it, creating a sense of motion and connectivity. The background is dark, with a faint, light-colored world map visible behind the globe.

The browser is the most commonly used program/s on a computer. These are used for viewing webpages and other things such as video what use either a flash player or html 5 player.

The cloud

Google Drive

The cloud is a online virtual web storage. The cloud allows you to upload almost any file to your online storage and access it from anywhere as long as you have a connection.

Websites

Websites are used for selling, searching, and even cloud storage. There are many more uses for a website than just these few. A website is a collection of documents hosted on a data farm or datacentre known as server/s.

Software I will use for this unit.

- I will be using at college: Adobe Dreamweaver, Notepad++ and Photoshop or paint.
- At home I will be using: Adobe Dreamweaver, Notepad++ and Photoshop or PaintNet.
